ELEKTRA IS THE RESULTS OF A CAREFUL RESEARCH MADE BY A GROUP OF CLEANNES AND INNOVATION LOVERS. IT REPRESENTS THE LAST SOLUTION OF MODERN MULTIFUNCTION CLEANERS.

ELEKTRA HAS THE FUNCTIONS OF 5 ELECTRICAL APPLIANCES IN ONE: IT SUCKS, WASHES, DRIES, SANITIZES AND IRONS

THIS VERY SPECIAL MACHINE IS **POWERFUL** AND **ECOLOGIC**, IT DOES NOT NEED ANY FILTERS OR BAGS, WHICH MUST BE CHANGED VERY FREQUENTLY. ELEKTRA MAKES GOOD USE OF THE NATURAL **PROPERTIES OF THE WATER** TO GUARANTEE THE HYGIENE AND CLEANNES. THANKS TO ITS **SMALL OVERALL DIMENSIONS**, IT IS VERY EASY TO HANDLE.
